PS

OBJECTIVE STATEMENT

As an aspiring Blockchain Developer and Computer Science student, I bring hands-on academic project experience in Solidity, React.js, Truffle, Kali Linux, and cybersecurity. Eager to contribute to pioneering solutions, I possess strong problem-solving abilities and a cooperative mindset. I aim to leverage my expertise in blockchain development, front-end technologies, cryptography, and cybersecurity to drive impactful projects forward in any role.

PROJECTS

BLOCK-STAMP

Developed a decentralized application for faculty to transparently record student attendance using Solidity for smart contracts and React.js for the user interface, ensuring secure and efficient attendance tracking in educational settings.

- Transparent and secure recording of student attendance.
- Efficient attendance tracking through a user-friendly interface.
- Enhanced data integrity and security in educational settings.

D-MEET

Developed a decentralized web application for video conferencing, enabling seamless meeting hosting and secure blockchain-based recording storage. This solution enhances transparency and data integrity, ensuring tamper-proof and highly secure meeting records.

- Seamless meeting hosting with secure blockchain-based recording storage.
- Enhanced transparency and data integrity for all meeting records.
- Tamper-proof and highly secure access to recorded meetings.

SKILLS

| kali linux | solidity | java script | react.js | C language | java | Web Development | Wi-Fi pentesting |

EDUCATION

Bachelor of Technology in Computer Science
Centurion University of Technology and Management, Andhra Pradesh
📅 2021 - 2025   📍 Vizianagaram,Andhra Pradesh

GPA
8.95 / 10

Intermediate
Sri Chaitanya Junior College
📅 03/2020   📍 Tirupati,Andhra Pradesh

GPA
7.96 / 10.0

SSC
Ravindra Bharathi School
📅 03/2018   📍 Tirupati,Andhra Pradesh

GPA
9.0 / 10.0

PASSIONS

⭐ **Cybersecurity Engineering**
Passionate about exploring innovative solutions to complex cybersecurity challenges, focusing on robust security measures to protect data integrity and privacy.

🏆 **Blockchain Developer:**
Passionate about advancing blockchain technology and exploring innovative solutions to complex challenges. My projects, **Block-Stamp** and **D-Meet**, reflect my dedication to secure, decentralized applications.
